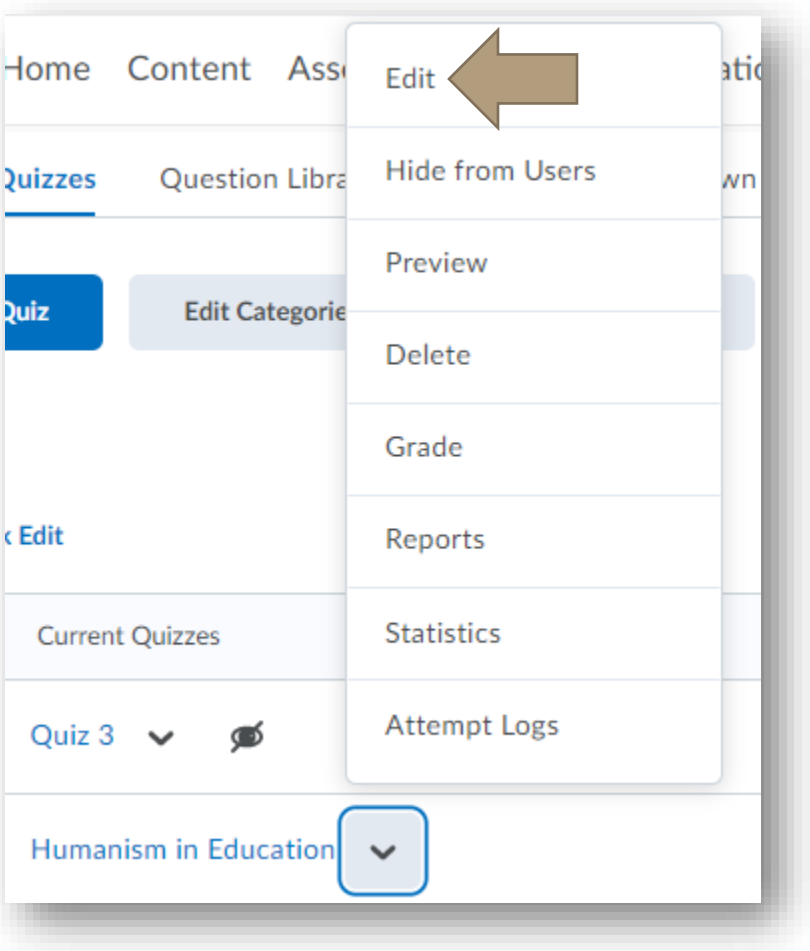
CAN I PASSWORD PROTECT MY QUIZZES?

Video Tutorial: Can I password protect my quizzes?

Determine if your quiz will have a password. It is encouraged to password protect quizzes that will be taken through ProctorU and the VSU Testing Center.

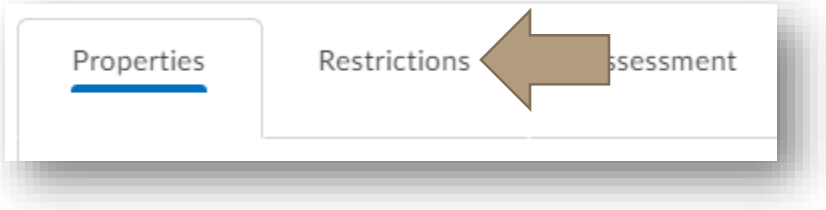
Password protected quizzes also work well to determine if students are accessing specific content. For instance, provide passwords during Blackboard Ultra sessions. This means students are responsible for obtaining the password by either attending the session or watching the recording.

To add a password, select the quiz in which you will be working and choose “Edit.”



CAN I PASSWORD PROTECT MY QUIZZES?

Next, enter the “Restrictions” tab.



Scroll until you see “Optional Advanced Properties.” Here, you can type in a password of your choosing.
